Summary

I have gained proficiency in both front-end and back-end technologies, demonstrating my skills in web development. In an agile environment, I prioritize effective communication, adaptability, and continuous improvement to drive success.

I possess expertise in HTML, CSS, and JavaScript for web development, along with knowledge of the .NET Framework, C#, Java, PostgreSQL, and Microsoft SQL Server. Additionally, I am adept at utilizing Bootstrap for responsive UI design and Flutter for cross-platform app development.

To showcase my capabilities, I have created a portfolio website that highlights my projects and skills, serving as a testament to my dedication and passion for the field. Throughout my experience, I actively collaborate with teams, contributing to the development of web applications and supporting project milestones. My strong communication and problem-solving skills enable me to deliver successful outcomes. As I continue to grow and learn, I strive for excellence in my work.

Experience

Software Engineer Intern

Mezzanine

Dec 2022 - Present (6 months)

As an intern at Mezzanine, I was given the opportunity to develop a Project Management application that caters to both web and mobile platforms. For the web application, I utilized the Helium framework, which is an in-house Java framework. Meanwhile, for the mobile application, I leveraged JourneyApps. Both applications seamlessly shared a PostgreSQL database to ensure data consistency across platforms.

My main responsibilities included designing and developing user-friendly interfaces for the web and mobile applications. I also took charge of managing the database to ensure efficient data storage and retrieval. Throughout the project, I followed a ticket-based workflow, which involved creating pull requests on Bitbucket for each task. Before merging the changes into the main codebase, I sought approval from senior developers at Mezzanine.

Web Development Intern

RLabs *Reconstructed Living Lab

Dec 2020 - Nov 2021 (1 year)

I had the opportunity to work on a project where I was assigned to build a static website for a non-profit organization called Cheerful Givers. As part of the YES program for work exposure, I utilized HTML, CSS, Bootstrap, and Canva for design to create an engaging and user-friendly website. My responsibilities included designing the website layout, implementing responsive design principles, and incorporating relevant content to effectively convey the organization's mission and goals.

This experience allowed me to apply my skills in web development and design to contribute to a meaningful cause.

Education

CTU Training Solutions

National Certificate , Computer Software Engineering

2022 - 2023

This is a 1-year accredited qualification divided into two categories 6 months of theory and 6 months of work experience in a software company.

Friends of Design - Academy of Digital Arts

Short Course, Graphic Design

2021 - 2021

I completed a short course in graphic design, obtaining Adobe certifications in Adobe Photoshop and Illustrator.

Lovedale TVET College

National Certificate Vocational, Agriculture, General

2014 - 2016

Nomaheya Senior Secondary School

National Senior Certificate

2012 - 2012

Licenses & Certifications

Scrum Fundamentals Certified (SFC) - Voxel Group

665164

Amazon Web Services Cloud Practitioner - Amazon Web Services (AWS)

Issued Mar 2022 - Expires Mar 2025

RVNM51983NQQQ55R

Skills

HTML • Cascading Style Sheets (CSS) • JavaScript • .NET Framework • C# • Java • PostgreSQL
• Microsoft SQL Server • Bootstrap • Flutter
